

DARIEL VALDEZ AVILA

Mandaluyong, Philippines | +63 966 204 4652 | daniel.v.avila@gmail.com | linkedin.com/in/darielavila

PROFESSIONAL SUMMARY

Backend-focused Software Engineer experienced in production APIs, cloud deployments, workflow automation, and CI/CD. Strong in TypeScript/JavaScript, Node.js, Python, AWS, GCP, Docker, and GitHub Actions, with measurable results across healthcare, insurance, ERP, e-commerce, and booking platforms.

TECHNICAL SKILLS

Backend & APIs: Node.js, Express.js, FastAPI, Flask, REST APIs, TypeScript, JavaScript, Python

Cloud & DevOps: AWS (EC2, Lambda, EB, S3, RDS, CloudFormation, CodePipeline, Step Functions), GCP, Docker, GitHub Actions, CI/CD, Heroku, Cloud Run

Data & Tools: MongoDB, MySQL, PostgreSQL, Firebase, Supabase, Prisma, Git, GitHub, CLI, Agile

Frontend: React.js, Next.js, Flutter, HTML, CSS, Tailwind

PROFESSIONAL EXPERIENCE

Advanced App Engineering Sr. Analyst Accenture

Jul 2026 - Present
Taguig City

- Own backend engineering and application support for **3 applications across 4 codebases**, delivering enhancements, fixes, and automation in **JavaScript/Node.js and Python** across business-critical services.
- Build and maintain cloud and serverless workflows using **AWS Lambda, Amazon S3, Amazon EC2, Amazon CloudFront, AWS CloudFormation, AWS Step Functions, Amazon OpenSearch Service, and AWS CodePipeline**, spanning compute, storage, orchestration, infrastructure-as-code, search, content delivery, and CI/CD.

Software Developer Filipino Trusted Care Center

Aug 2025 - Jul 2026
Mandaluyong City

- Enhanced the **PhilHealth YAKAP Electronic Medical Records (EMR)** platform to support secure patient-data handling, efficient clinical workflows, and reliable day-to-day healthcare operations.
- Maintained and optimized backend APIs and service integrations across healthcare modules, improving consistency of data exchange and overall system reliability.
- Managed **Heroku deployments, environment configuration, and production reliability** to keep releases consistent and the EMR platform operational.

Software Backend Engineer (Freelance) Ilustrados Creatives and Technology Inc.

Jun 2025 - Feb 2026
Quezon City

- Engineered scalable backend services for the **SureOne Insurance Platform**, including a configurable insurance calculation engine, reusable APIs, and ABIC/PIRA integrations that increased operational visibility by **45%**.
- Developed secure booking APIs, dynamic international pricing, and administrator content-management endpoints for the G-Force Dance Platform, reducing manual administrative work by **50%**.
- Established **Docker, GitHub Actions CI/CD, and GCP Cloud Run** deployment workflows that cut deployment time by **60%** and improved release consistency.

Technology Developer Trifecta Solutions Inc.

Apr 2024 - Jun 2025
Quezon City

- Delivered backend solutions across ERP, loyalty, agriculture e-commerce, microfinance, and real-estate products; improved API response time by **45%** and reduced loan processing time by **60%**.
- Designed ERP workflow automation that increased project delivery speed by **40%** and reduced operational costs by **30%**; helped support an agriculture platform processing.
- Built a points-based customer loyalty platform that increased retention by **35%** and repeat purchases by **50%**; optimized a real-estate backend to improve system efficiency by **60%**.

Full Stack Developer (Independent Freelance) Remote

Jun 2023 - May 2026
Quezon Province

- Delivered web and mobile solutions for dental booking, attendance, OJT management, and ride-hailing; reduced dental administrative workload by **60%** and accelerated appointment booking by **50%**.
- Built facial-recognition attendance with **95% accuracy** and **90% less manual logging**; created OJT workflows that improved coordination by **55%** and cut paperwork processing by **70%**.
- Developed a GPS-enabled tricycle booking application with dynamic fare calculation, supporting **200+ daily bookings** and a **98% completion rate**.

EDUCATION

Bachelor of Science in Information Technology (BSIT) — Polytechnic University of the Philippines, Lopez Campus

Diploma in Information Communication Technology (DICT) — Polytechnic University of the Philippines, Lopez Campus

ADDITIONAL HIGHLIGHTS

ASEAN AI Hackathon 2026 — Official Representative, PUP Lopez Campus; contributed to the “Basa AI” mobile application.
